

Marquette Area Public

Professional Development Goals

1. To provide time and resources for teachers and administrators to meet through sustained, collaborative, and consistent professional development.
2. To address district/building/individual professional development needs in support of school improvement and strategic planning.
3. To increase student achievement as documented through measurable assessment tools.

Five Principles That Underlie the Work of Study Groups

- Students are first.
- Everyone participates.
- Responsibility is equal.
- Leadership is shared.
- The work of the study group is public.
